

ANNOUNCEMENT FROM New Intelligence Inc.

Over the course of several months, the New Intelligence web site at www.newintel.com was vandalized repeatedly, and finally taken down completely.

As a result, we made the decision recently to move the web site to another internet service provider, and the web site will be completely redesigned over the course of the next several weeks.

In the meantime, please contact New Intelligence at (972) 641-7747, or at e-mail newintel@newintel.com for software support or for information about our software applications and related services.

During the next few weeks, we will be posting temporary updates about New Intelligence software developments and new cloud-based delivery options while the new web site is being designed and constructed.

We appreciate your patience during this transition period.

New Intelligence Inc.
